CERTIFICACION NUMERO 18-82

La que suscribe, Secretaria Interina del Senado Académico del Recinto Universitario de Mayagüez de la Universidad de Puerto Rico, **CERTIFICA** que en la reunión ordinaria celebrada en la sesión del martes, 23 de octubre de 2018 este organismo **APROBÓ** la **MOCIÓN DEL SENADO ACADÉMICO PARA RESPALDAR LAS ACCIONES DE LA JUNTA DE RETIRO DE LA UPR EN DEFENSA DEL PLAN DE BENEFICIOS DEFINIDOS Y EN APOYO A SU RESOLUCIÓN #7 Y PARA APOYAR LA RESOLUCIÓN DEL CLAUSTRO DE CAYEY EN LA QUE SE CRITICA LA CREACIÓN DE LA OFICINA DE TRANSFORMACIÓN INSTITUCIONAL (OTI) Y EN LA QUE SE SOLICITA LA DEROGACIÓN DE LA CERTIFICACIÓN 10 DE LA JUNTA DE GOBIERNO.**

POR CUANTO: La Junta de Retiro, como representante autorizado de los empleados participantes pensionados del Fideicomiso del Retiro UPR, ha estado presentando durante los pasados meses los retos que confronta con los recortes al presupuesto de la UPR, las propuestas de la Junta de Control Fiscal y las de la Junta de Gobierno de la UPR.

POR CUANTO: La meta de la Junta de Retiro es mantener el Plan de Retiro de Beneficios Definidos y garantizar su solvencia y perpetuidad. Para lograr sus propósitos adopta las resoluciones que entiende necesarias para descargar sus responsabilidades y cumplir con su encomienda.

POR CUANTO: En repetidas ocasiones la Junta de Retiro ha señalado que desde el 2016-17 la UPR no ha cumplido con la totalidad de las aportaciones necesarias para la amortización de la deuda actuarial del sistema según pautado en la Certificación 146 de la JG (2014-2015), acumulando un déficit que afecta su cartera de inversiones y su coeficiente de sostenibilidad fiscal ("funding ratio").

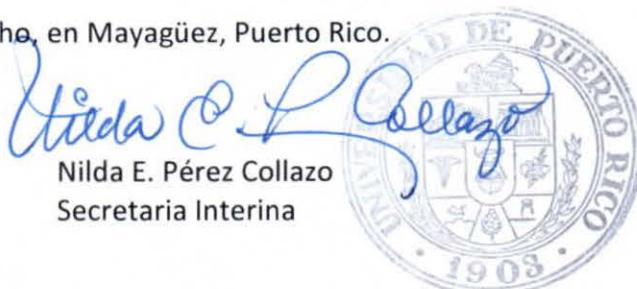

POR CUANTO: En su Resolución #7 (2018-2019) la Junta de Retiro impugna la legalidad de la Certificación 10 (2018-2019) de la Junta de Gobierno, que crea la Oficina de Transformación Institucional (OTI) y su aplicabilidad al Fideicomiso de Retiro de la UPR y cuestiona la asignación de 10 millones para la operación de la OTI en el Plan Fiscal de la UPR, mientras se reducen los pagos de la amortización de la deuda actuarial y la aportación patronal de la UPR.

POR CUANTO: El Claustro de la UPR en Cayey en su reunión ordinaria del 11 de septiembre aprobó también una resolución criticando la decisión de la Junta de Gobierno de crear la OTI y solicitando la derogación de la Certificación 10 (2018-2019) de la Junta de Gobierno. Esta resolución de Cayey, así como la Resolución #7 de la Junta de Retiro recibieron el apoyo unánime del Senado Académico del Recinto de Río Piedras mediante su Certificación #23 (2018-2019).

POR TANTO: El Senado Académico del Recinto Universitario de Mayagüez resuelve:

- Solicitar al Presidente de la UPR y a la Junta de Gobierno que realicen las aportaciones económicas al Sistema de Retiro necesarias para amortizar la deuda actuarial según pautado en la Certificación 146 (2014-2015) de la Junta de Gobierno.
- Apoyar la Resolución #7 (2018-2019) de la Junta de Retiro donde se revoca la aplicabilidad de la Certificación 10 (2018-2019) de la Junta de Gobierno al Fideicomiso de Retiro de la UPR y en la que se requiere privar la OTI de toda intervención con el Fideicomiso de Retiro.

Y para que así conste, expido y remito la presente certificación a las autoridades universitarias correspondientes, bajo el sello de la Universidad de Puerto Rico a los veinticuatro días del mes de octubre del año dos mil dieciocho, en Mayagüez, Puerto Rico.

- Por cuanto La Junta de Retiro, en cumplimiento de su responsabilidad debe tomar medidas para el fortalecimiento y sostenimiento del Sistema de Retiro bajo su estructura actual de beneficios definidos,
- Por cuanto Durante los últimos años el Sistema de Retiro ha confrontado un flujo de efectivo negativo, teniendo como consecuencia de esto que recurrir a la liquidación de activos del Fondo de Retiro.
- Por Cuanto La Junta de Retiro recomendó y la Junta de Gobierno aprobó una enmienda al Inciso A de la Certificación Núm. 139 (2001-2002) de la Junta de Síndicos a los efectos de derogar la disposición que autoriza un aumento de tres por ciento (3%) cada dos años en el sueldo máximo cotizable. El inciso enmendado, lee de la siguiente manera:
- A. *Ofrecer a los empleados participantes del Sistema de Retiro la alternativa de elevar el sueldo máximo cotizable a \$60,000, efectivo el 1 de julio de 2002 e incrementar dicho máximo cotizable automáticamente y en forma prospectiva en un 3% cada dos años hasta el 30 de junio de 2014. A partir del 1 de julio de 2014 se establece un sueldo máximo cotizable fijo de \$69,556.44.*
- Por cuanto La Junta de Retiro ha trabajado intensamente para plantear responsablemente estos ajustes al Sistema de Retiro para que en conjunto fortalezcan el plan de beneficios definidos para todos los empleados activos y jubilados del Sistema,
- La Junta de Retiro comunicó a la Junta de Gobierno de la Universidad de Puerto Rico la aprobación de los cambios actuariales recomendados en el Estudio de Experiencia que cubre el período de cinco años del 30 de junio de 2008 al 30 de junio de 2013, por la firma de consultores Cavanaugh Macdonald Consulting LLC, para implementarse a partir de la fecha de la

Por Tanto La Junta de Retiro, recomendó la aprobación de cambios adicionales a la pensión no ocupacional que considera necesarios al Artículo IV del Reglamento de Pensiones del Sistema de Retiro. Estos cambios son:

1. Que se aumente de 10 a 15 años de servicio acreditados del participante para cualificar.
2. Que el cálculo para determinar la pensión a pagar, si cualificara para la misma, se haga a base de los años de servicio.
3. Que el monto de la pensión sea el 90% de la pensión por servicio que le hubiera correspondido.

Estos cambios serán efectivos tan pronto sean aprobados por la Junta de Gobierno.

Por Tanto La Junta de Retiro recomienda la aprobación de cambios en los requisitos para acogerse a los beneficios de retiro por años de edad y servicio.

1. Aumentar la edad de retiro de 55 a 58 años de edad para aquellos empleados que tengan menos de 25 años de servicio acreditados.

Board of Trustees & Retirement Board
University of Puerto Rico
Retirement System
P.O. Box 21769
San Juan, Puerto Rico 00925

Dear Board Members:

We are pleased to submit the results of the annual actuarial valuation of the University of Puerto Rico Retirement System (the System) as of June 30, 2014.

The purpose of this report is to provide a summary of the funded status of the System as of June 30, 2014, to recommend rates of contribution and to provide accounting information under Governmental Accounting Standards Board Statements No. 27 (GASB 27). While not verifying the data at source, the actuary performed tests for consistency and reasonability.

The valuation results indicate that the combined employer and member contribution rates in the table below are sufficient to fund the normal cost for all members and the unfunded accrued liability. In the table below we also present the estimated required University contribution amount for fiscal year 2015 to fund the System. For comparison we present the contribution rates and amounts for fiscal year 2014 based on the 2013 valuation.

| Valuation Date | June 30, 2014 | June 30, 2013 |
|---|---------------|---------------|
| Recommended Contributions for Fiscal Year | 2015 | 2014 |
| Total Contribution Rate | 25.00% | 21.24% |
| Average Member Contribution Rate | 7.71% | 6.08% |
| University Contribution Rate | 17.29% | 15.16% |
| Estimated University Contribution (\$'s millions) | \$ 86.6 | \$ 74.5 |

The promised benefits of the System are included in the actuarially calculated contribution rates, which are developed using the individual entry age normal cost method and open-end supplemental liability. The valuation reflects the assumption and method changes based on the most recent experience study of the Retirement System. A five-year smoothing of the market value of assets is used for actuarial valuation purposes. Gains and losses are reflected in the unfunded accrued liability that is being amortized by regular annual contributions as a level percentage of payroll over a closed 30-year period, on the assumption that payroll will increase by 3% annually and the amortization period will decrease by one year until reaching 0 years. The assumptions recommended by the actuary and adopted by the Board are, in the aggregate, reasonably related to the experience under the System and to reasonable expectations of anticipated experience under the System and meet the parameters for the disclosures under GASB 27.

The recommended assumptions and methods include amortization of the unfunded accrued liability over a closed 30-year period. As requested, below we also present the University contribution rate and estimated contribution amount assuming an open 30-year period. Since as of June 30, 2014 both the closed and open periods are 30 years, the contribution rates and amounts are the same under both methods.

| Unfunded Accrued Liability Amortization Method | Closed | Open |
|---|---------------|----------|
| | (Recommended) | |
| Contributions for Fiscal Year | 2015 | 2015 |
| Total Contribution Rate | 25.00% | 25.00% |
| Average Member Contribution Rate | 7.71% | 7.71% |
| University Contribution Rate | 17.29% | 17.29% |
| Estimated University Contribution (\$'s millions) | \$ 86.6 | \$ 86.6 |
| Amortization Period | 30 years | 30 years |

All historical information that references a valuation date prior to June 30, 2013 was prepared by the previous actuary.

Future actuarial results may differ significantly from the current results presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in plan provisions or applicable law. Since the potential impact of such factors is outside the scope of a normal annual actuarial valuation, an analysis of the range of results is not presented herein.

The undersigned is a member of the American Academy of Actuaries and meets the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

The Table of Contents, which immediately follows, outlines the material contained in the report.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "José I. Fernández".

Based on the most recent experience study of the Retirement System, the following changes to the assumptions have been adopted by the Retirement Board since the previous valuation:
 - Change assumed rates of termination from age-based to service-based rates
 - Reduce assumed rates of retirement

4. The valuation takes into account the effect of amendments to the System through the valuation date. The Main Provisions of the System, as summarized in Schedule F, were taken into account in the current valuation. Effective July 1, 2014, the compensation limit for Certification 139 was frozen at \$69,556.44. There were no other changes to the provisions since the previous valuation.

Section IV – Comments on Valuation

1. The total valuation balance sheet on account of benefits shows that the System has total prospective benefit liabilities of \$2,940,879,329, of which \$1,526,071,971 is for the prospective benefits payable on account of present retired members, disabled members and survivors of deceased members, \$46,542,365 is for the prospective benefits payable on account of inactive members entitled to future benefits, and \$1,368,264,993 is for the prospective benefits payable on account of present active members. Against these benefit liabilities the System has a total present actuarial value of assets of \$1,179,752,077 as of June 30, 2014. The difference of \$1,761,127,252 between the total liabilities and the total present actuarial value of assets represents the present value of contributions to be made in the future on account of benefits. Of this amount, \$256,363,540 is the present value of future contributions expected to be made by members, and the balance of \$1,504,763,712 represents future University contributions.
2. Since the average member contribution rate exceeds the Normal Rate of the System, the University's contributions on account of benefits consist of accrued liability contributions only.
3. It is recommended that the accrued liability contribution rate payable on account of retirement benefits be set at 17.85% of payroll. This rate is sufficient to liquidate the unfunded accrued liability of \$1,504,763,712 over 30 years beginning June 30, 2014 on the assumption that the aggregate payroll will increase by 3% each year. Of the total unfunded accrued liability rate of 17.85%, the employer will contribute 17.29% and the extra 0.56% of payroll is from the average member contribution rate, which is 7.71%, that is in excess of the total normal contribution rate of 7.15%.

Section V – Contributions Payable by Employer

The employer contribution rates according to the Rules and Regulations of the System are shown in the following table.

INFLATION ASSUMPTION: 3.00% per year.

PAYROLL GROWTH ASSUMPTION: 3.00% per year

ADMINISTRATIVE EXPENSE ASSUMPTION: 0.70% of total payroll of covered employees

PERCENT MARRIED: 80% of employees are assumed to be married, and wives are assumed to be the same age as their husbands.

ASSETS: The method of valuing assets is intended to recognize a “smoothed” market value of assets. Under this method, the difference between actual return on market value from investment experience and the expected return on market value is recognized over a 5-year period.

INTEREST CREDIT: 4% per annum on member contribution account balances.

SALARY INCREASES: 3.75% per annum

Schedule E – Actuarial Cost Method

1. The valuation is prepared on the projected benefit basis, which is used to determine the present value of each member's expected benefit payable at retirement, disability or death. The calculations are based on the member's age, years of service, sex, compensation, expected future salary increases, and an assumed future interest earnings rate (currently 7.75%). The calculations consider the probability of a member's death or termination of employment prior to becoming eligible for a benefit and the probability of the member terminating with a service, disability, or survivor's benefit. The present value of the expected benefits payable to active members is added to the present value of the expected future payments to current benefit recipients to obtain the present value of all expected benefits payable to the present group of members and survivors.
2. The employer contributions required to support the benefits of the System are determined using the individual entry age normal cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the valuation is allocated as a level percentage of the individual's projected compensation between entry age and assumed exit.

The portion of the actuarial present value allocated to a valuation year is called the normal cost. The normal cost is calculated for each individual member. The normal cost rate is defined as the total of the individual normal cost divided by the total annual covered payroll.

The portion of the actuarial present value not provided for at a valuation date by the sum of (a) the actuarial value of assets and (b) the actuarial present value of future normal cost is called the Unfunded Actuarial Accrued Liability (UAAL). The UAAL is amortized as a level percentage of the projected salaries of the present and future members of the System, over a 30 year period beginning June 30, 2014 on a closed basis.

Sistema de Retiro
Universidad de Puerto Rico
Junta de Retiro

RESOLUCIÓN #7 (2018-2019)
Requerir anular Certificación Núm. 10, 2018-2019, JG

La Junta del Sistema de Retiro de la Universidad de Puerto Rico (“Junta de Retiro”) en su reunión extraordinaria del día 13 de septiembre de 2018, aprobó por unanimidad la siguiente Resolución:

- Por cuanto El 30 de agosto de 2018, la Junta de Gobierno de la Universidad de Puerto Rico (“JG-UPR”) promulgó la Certificación Núm. 10, 2018-2019 (Certificación 10) para publicar el ‘Reglamento Sobre el Funcionamiento y Operación de la Oficina de Transformación Institucional’ (“OTI”) para establecer sus funciones y guías aplicables.
- Por cuanto La Certificación 10 constituye un ‘Documento Guía’ y no un Reglamento vinculante a terceros según lo dispone la Ley de Procedimiento Adjudicativo Uniforme, Ley Núm. 38 de 30 de junio de 2017, según enmendada (“LPAU”).
- Por cuanto La JG-UPR fundamentó la Certificación 10 en el Artículo 3(h) 16 de la Ley de la Universidad de Puerto Rico, Ley Núm. 1 de 20 de enero de 1966, según enmendada (Ley 1-1966) que le facilita a establecer una oficina y contratar servicios para ejercer sus funciones como cuerpo rector de la UPR.
- Por cuanto La autoridad de la JG-UPR, para emitir documentos guías bajo la LPAU, está sujeta a que la JG-UPR proporcione a los que se consideren afectados (empleados y/o pensionados de la UPR) por las disposiciones de la Certificación 10, una oportunidad adecuada para retar su legalidad o razonabilidad previo a su vigencia.
- Por cuanto La JG-UPR promulgó la Certificación 10 en inobservancia de las disposiciones de la LPAU que le requerían habilitar un foro adecuado y facilitar la oportunidad para que la comunidad universitaria retara la legitimidad y razonabilidad de la Certificación 10, previo a su vigencia.
- Por cuanto En el año 1945, el entonces cuerpo rector de la UPR tomó la determinación administrativa de establecer el sistema de pensiones de los empleados de la UPR bajo la figura legal de un Fideicomiso.
- Por cuanto La escritura pública de *Confirmation and Acknowledgment of Trust* (“Escritura de Fideicomiso”), suscrita por el fideicomitente (UPR) y el fiduciario (JG-UPR), ratifica el Fideicomiso del Sistema de Retiro de la UPR (“Fideicomiso del Retiro UPR”), gobernado por las disposiciones de la Ley 219 de 31 de agosto de 2012, la Ley de Fideicomisos de Puerto Rico (Ley 219-2012).
- Por cuanto La Ley 219-2012 establece que el Fideicomiso del Retiro UPR es una entidad jurídica independiente de la UPR y un patrimonio autónomo.
- Por cuanto La Certificación 10 equivocadamente trata el Fideicomiso del Retiro UPR como una unidad de la UPR, en lugar de una entidad jurídica independiente, y erróneamente presume que la JG-UPR, como cuerpo rector de la UPR, puede ejercer facultades sobre el Fideicomiso a tenor con el Artículo 3(h) 16 de la Ley 1-1966.
- Por cuanto La determinación administrativa de la JG-UPR de autorizar trabajos e intervención de la OTI con el Fideicomiso es ilegal y una actuación *ultra vires*.
- Por cuanto El principio de legalidad en la administración pública requiere a la JG-UPR prudencia y compromiso para garantizar que sus actuaciones sean conforme a Derecho, por ello constituye un abuso de discreción el que la JG-UPR procure servicios y autorice a la OTI para intervenir con el Fideicomiso del Retiro UPR a tenor con el Artículo 3(h) 16 de la Ley 1-1966.
- Por cuanto La Ley 219-2012 interpela a la JG-UPR, como su Fiduciario, a cumplir con la sana administración del Fideicomiso.

- Por cuanto A la JG-UPR, como Fiduciaria del Fideicomiso, le corresponde defender el Retiro UPR como una entidad legal separada de la UPR con un patrimonio separado que pertenece a los fideicomisarios, que son los empleados-participantes y pensionados de la UPR.
- Por cuanto La JG-UPR continúa demostrando el gran conflicto de interés que acarrea su doble nombramiento, como cuerpo rector de la UPR y como Fiduciario del Fideicomiso del Retiro UPR, especialmente, en los asuntos relacionados con PROMESA y la Junta de Control Fiscal.
- Por cuanto La JG-UPR asignó \$10 millones para la operación de la OTI y en el Plan Fiscal de la UPR, que aprobó en su versión del 7 de septiembre de 2018, unilateralmente reduce los pagos para la amortización de la deuda actuarial y la aportación patronal de la UPR, impactando negativamente la solvencia del Fideicomiso del Retiro UPR y en contravención de las recomendaciones del actuario del Retiro UPR y la Junta de Retiro.
- Por cuanto La Junta de Retiro, como representante autorizado de los empleados-participantes y pensionados (los Fideicomisarios) del Fideicomiso del Retiro UPR, impugna la validez, legalidad y aplicabilidad de la Certificación 10 al Fideicomiso del Retiro UPR ya que el Artículo 3(b) 16 de la Ley 1-1966, no es aplicable al Fideicomiso del Retiro UPR.
- Por tanto Ante el hecho irrefutable de que la JG-UPR, al aprobar la Certificación 10 incurrió en un acto *ultra vires*, sin contar con la facultad legal para ello a tenor con el Artículo 3(b) 16 de la Ley 1-1966, autorizando a la OTI a realizar trabajos e intervenir con el Fideicomiso del Retiro UPR, la Junta de Retiro le requiere:
1. revocar por nula, la aplicabilidad de la Certificación 10 al Fideicomiso del Retiro UPR;
 2. privar a la OTI de toda intervención y de ejercer trabajos relacionados al Fideicomiso del Retiro UPR en un término que no exceda los cinco (5) días calendarios; y

Por tanto Trascurrido el término de cinco (5) días calendarios, si la JG-UPR opta por desatender la petición de rectificación de la Certificación 10 aquí requerida, en inobservancia de su rol fiduciario sobre el Fideicomiso del Retiro UPR, la JG-UPR entonces, obligará a que la Junta de Retiro como representante legal de los Fideicomisarios, beneficiarios y propietarios del Fideicomiso del Retiro UPR, ejerza los remedios disponibles en ley, en los foros que estime necesarios, para obligar a rectificar el acto *ultra vires* e ilícito de la JG-UPR de permitir trabajos e intervenciones administrativas de la OTI con el Fideicomiso del Retiro UPR bajo la Certificación 10.

Se emite, hoy, 14 de septiembre de 2018, en las Oficinas del Sistema de Retiro de la Universidad de Puerto Rico en San Juan, Puerto Rico.

Eduardo Berrios Torres, Ed. D.
Presidente

Se acuerda enviar copia de esta resolución a cada miembro de la Junta Gobierno-UPR; a los participantes activos y pensionados del Fideicomiso de Retiro de la UPR; a los Senados Académicos y Junta Universitaria de la UPR; al Presidente de la UPR, a las organizaciones sindicales y profesionales de la UPR; al Gobernador de Puerto Rico y a la Prensa radial y escrita de Puerto Rico.

Certificación número 4

Yo, José A. Cabrera Pérez, Secretario del Claustro de la Universidad de Puerto Rico en Cayey, CERTIFICO:

Que el Claustro, en su reunión ordinaria del dia 11 de septiembre de 2018, tuvo ante su consideración una moción presentada por el Dr. Errol Montes Pizarro del Departamento de Matemática-Física. Luego de la exposición de rigor, el claustro aprobó por unanimidad lo siguiente:

RESOLUCIÓN:

Por cuanto: La Junta de Gobierno de la UPR en su certificación JG 10 (2018-19) acepta la imposición de la Junta de Control Fiscal de Puerto Rico de una Oficina de Transformación Institucional (OTI) y crea un reglamento para su funcionamiento que le concede injerencia en la administración, creación o eliminación de programas académicos; en el manejo de las facilidades universitarias; en la reestructuración de nuestra administración sin la participación democrática de nuestra comunidad; ajustes a los costos de matrícula; en nuestro sistema de retiro; en iniciativas y acciones de personal; entre otras áreas académicas y de personal.

Por cuanto: Esta acción de la Junta de Gobierno de la UPR elimina en la práctica la autonomía fiscal y administrativa de la UPR entregándole su gobernanza a un ente cuyo objetivo principal es salvaguardar intereses ajenos al pueblo de Puerto Rico, en particular ajenos a los intereses académicos de la UPR, y cuyos miembros no serán electos democráticamente prestándose a convertirse en la práctica en otra instancia de intervención político partidista en los quehaceres de nuestra institución.

Por cuanto: En un momento en que la Universidad enfrenta el mayor reto fiscal de su historia, nuestros funcionarios han decidido despilfarrar millones de dólares para el funcionamiento de la OTI, emulando en nuestro sistema universitario el gasto que representa la Junta de Control Fiscal para Puerto Rico, mientras enfrentamos la realidad inminente de despidos masivos, recortes a programas académicos y la reducción significativa del acceso de la población con desventaja económica a la Universidad, entre otras consecuencias

Por tanto: El claustro de la UPR Cayey reunido en asamblea ordinaria el 11 de septiembre de 2018:

(PO Box 372230, Cayey, PR 00736-2230) 205 Ave. Antonio R. Barceló – Cayey, PR 00736-9997
